CLOUD MANAGEMENT PLATFORM

Smart. Centralised. Intelligent Network Control.

OVERVIEW

DuxNet Cloud is a next-generation, cloud-driven network management platform for small to medium and multi-branch enterprises. It simplifies operations, improves reliability, and gives you real-time control across every site.

With intelligent automation and AI-powered optimisation, Apollo helps organisations run smarter, respond faster, and manage networks with confidence.

MAIN FEATURES

Cloud-Based Network Management	Manage your entire network from a single cloud platform. Deploy, configure, and troubleshoot remotely with zero-touch operations.
Real-Time Network Topology	Visualise your full network at a glance. Instantly identify issues with a smart topology map and device-level insights.
Full Resource Visibility	Monitor device status, performance metrics, and traffic insights in one intuitive, centralised dashboard.
Multi-Level User Permissions	Role-based access controls secure your environment across teams, sites, and organisational structures.
AI-Enhanced Optimisation	Automated tuning and intelligent scheduling keep your network performing at its best, without manual intervention.
Predictive Risk Alerts	Continuous health monitoring delivers early warnings on faults and performance risks – reducing downtime before it happens.

WHO IT'S BUILT FOR

- Small to Medium Businesses
- Multi-branch enterprises
- Corporate campuses
- SMBs adopting cloud operations
- ISPs & managed service providers
- Home and Private Users

WHAT THIS MEANS FOR YOUR BUSINESS

- Lower network operating costs
- Faster support response and resolution
- Greater reliability and visibility
- Unified multi-site management
- Built to scale as your business grows

SUPPORTED DUXNET CLOUD-ENABLED SWITCHES*

Industrial Switches	DUX1016GPS-4F-IS
	DUX104GPS-2F-IS
	DUX108GPS-2F-IS
L2 Managed Switches	DUX1510P
	DUX2516PA
	DUX2524P
L3 Managed Switches	DUX3528
	DUX3528P
	DUX3548P
	DUX3548PP

*For most switches bought before 1 February 2026, DuxNet Cloud is available by doing a firmware upgrade. Please check with support@duxnet.co.za
